September 4, 1991

Mr. Bruce Whited  
Vice President  
Cobb Mining Company  
12153 South 1840 East  
Draper, Utah 84020

Dear Mr. Whited:

Re: Notice of Intention to Commence Small Mining Operations, L.C. and K.C.L.  
Claims (Mine and Mill) Project, S/021/013, Iron County, Utah

We received a copy of your Notice of Intention to Commence Small Mining Operations, from the Bureau of Land Management on July 29, 1991. The application for the proposed L.C. and K.C.L. Claims (Mine and Mill) Project, located in the SE/4, NE/4 of NW/4 of Section 1 (minesite), and the SE/4, NE/4 of NW/4 of Section 12, (millsite), T31S, R8W, SLBM is complete and no additional information is required at this time.

For your reference, I have enclosed copies of our summarized rules regarding "Operation and Reclamation Practices", and the statutory penalty for failure to reclaim a minesite (attachments SMO-1 and SMO-2).

Please give special consideration to item #10 of the "Operation and Reclamation Practices" (attachment SMO-1). Stockpiling topsoil material prior to beginning your mining operation will help ensure successful revegetation efforts upon final reclamation of the minesite. If the area being mined is a solid rock outcrop, or if the land surface is very rocky, then soil stockpiling is probably not possible. However, even the first few inches of undeveloped material is worth saving to aid in later revegetation efforts, and future regulatory release from reclamation requirements.

Should you wish to expand your operation beyond the five acre limitation, please notify this office as soon as possible to discuss the necessary permitting requirements.

A Memorandum of Understanding (MOU) between this Division and the State Department of Environmental Quality (DEQ) requires us to notify them upon receipt of a mining application. If you haven't already done so, you are advised to contact their office prior to starting your small mining operation to determine whether additional permits and/or approvals are required. We will forward a copy of this letter and your notice to the DEQ for their review. Their address and phone number is: Department of Environmental Quality, 288 North 1460 West, Salt Lake City, Utah, 84116, (801) 538-6121.

Thank you for your cooperation. When in the area, a member of the Division staff will examine the site. Best wishes with your mining operation.

Sincerely,

D. Wayne Hedberg  
Permit Supervisor  
Minerals Regulatory Program
